### PROFESSIONAL SUMMARY

UI/UX Designer with a sharp eye for detail and a knack for transforming concepts into intuitive digital experiences. With 2 years of experience in UI Design and user experience, user research, usability testing, wireframing, and advance prototyping, I have consistently delivered user-approved designs, earning Intern of the Month at SoluLab for innovative contributions and worked with various departments. Proficiency in tools like Figma, Adobe Creative Suite, Illustrator.

### CORE COMPETENCIES AND SKILLS

**Design & UX:** User experience design / user Interface design principles & information architecture, Card sorting, Interaction & visual design (Typography, Color theory, Logos), wireframing & prototyping (Low to High Fidelity designs), motion & micro-interactions, Responsive Designs with autolayout for advance flexibility, Service design and design audits

**Research & Analysis:** User research and user interviews, design research, user journey and empathy mapping, User flows, Usability testing, Quantitative data analysis and Consumer insights

**Tools & Technologies:** Figma & FigJam for design and brainstorming, Adobe Creative Suite (XD, Illustrator), Basic to advanced understanding of HTML, CSS, and JavaScript for effective collaboration, Familiarity with front-end and backend systems, including APIs and databases.

**Collaboration & Workflow:** Cross-functional teamwork, handling external clients, Agile & design workflows.
